

## W. J. BRYAN WILL RUN FOR PRESIDENT WITHOUT ANY CAMPAIGN FUND

Announces His Candidacy in Remarkable Ad-  
dress at Democratic Love Feast

AND HE ALSO SPECIFIES HIS PLATFORM

Which Includes Tariff Reform, Election of Senators by  
Direct Vote, and Restraint of Government  
By Injunction.

WASHINGTON, Nov. 27.—At 2:15 this morning Wm. Jennings Bryan  
concluded his address to 500 loyal Democrats who gathered to launch his  
candidacy for the presidency, with these words: "I do not know who will  
be the Democratic nominee, but I will say if I am the man, I would prefer  
to make the race without any national committee, without any campaign  
funds, and on straight principles that will appeal to the conscience of the  
voters."

His proposed planks are tariff reform, railroad regulation, an income  
tax, restraint of government by injunction, election of senators by direct  
vote, the arbitration of labor disputes, the enforcement of trust laws,  
anti-ship subsidy, anti-imperialism, and anti-centralization.

### CONSTITUTION WILL BE TORN INTO SHREDS UNLESS TEMPERAMENT OF PRESIDENT IS RESTRAINED

The Advocate told last night of an-  
other of the many "striking," not to  
say "volcanic," occurrences at the  
White House, which in the estimation  
of many conservative citizens have  
well nigh demolished that historic  
structure, when the President, to de-  
termine a dead lock on the subject of  
patronage from the senators from  
South Dakota, by their consent, flip-  
ped a coin to decide which one should  
name the United States district at-  
torneys, collectors of internal revenue,  
assayers of mint, Indian agents, etc.

The account characteristically adds  
that the agreement was hastily made  
and it might have added, was as hastily  
executed.

Judson Harmon, in an address last  
summer before Kentucky State Bar  
Association, pointed out in far more  
diplomatic language than I can com-  
mand, that the presidential tempera-  
ment, unless restrained, would rip  
the constitution into shreds.

The idea of filling important Fed-  
eral offices by a toss up, by the flip of  
a coin, which doubtless bore upon it  
no redeeming "In God We Trust" in-  
scription, and the idea of the Presi-  
dent being the originator, proprietor  
and sole manager of the lottery, is no  
less shocking than startling. Where is  
this unbridled strenuousness of pre-  
sidential temperament to end?

The legal departments, state and  
federal, of this country, have in re-  
cent years, spent millions to suppress  
lotteries because of their quick work in  
debauching the public morality. They  
have succeeded in driving from our  
borders every form and vestige of lot-  
tery except this Rooseveltian species  
and marriage. The latter as the su-  
preme game of chance, has defied all  
laws, human and divine and seems to  
be more than ever entrenched on the  
hearts of my countrymen (and espe-  
cially women). This seems to be inevit-  
able; for the idea of trial marriages,  
a very modern suggestion of putting  
on the lid, is exceedingly unpopular  
because of the difficulty of working  
out the details along moral lines.

This, it might be said, is the only  
natural lottery. It is a hasty tie,  
with, seemingly, an eternity for re-  
pentance. But it is real. The ec-  
cile attempts to untie the knot are  
tile attempts to untie the knot are  
very like the moth and the candle.  
There seems to be no chance for re-  
form here.

But why seek for other lotteries,  
and be not warned by the inexorable  
sway of this?

Why not elect our mayor and set-  
tle the potent "lid" question in the  
same way? (What a chance Ran-  
dolph would have had?) To drink  
or not to drink—let's flip a coin!  
Think of the economy of such a  
method. But what becomes of that  
cardinal idea of civil service reform  
—of fitness filling the offices, of the  
survival of the fittest which was  
such a darling doctrine of "His Ex-  
cellency," before he became madden-  
ed by power?

The senators from South Dakota  
were unable to agree because each  
charged the other with nominating  
unfit men. By this wholesome solu-  
tion of the difficulty, these incompe-  
tent spoils hunters succeeded in pull-  
ing these important plums, while the  
men who deserved the offices failed  
of even a glimpse of the promised  
land.

I used to be a Republican; then I  
became a Democrat; then I hardly  
knew what I was. I used to think I  
admired the President, especially  
when I saw him hurdle jumping into  
popularity astride of planks purloined  
from the Democratic platform. It  
took me back to my circus days. His  
campaign against race suicide looked  
fine on paper, but I regret I was  
taken with it, for now my brood of  
twelve, whose mother is worn to a  
shadow doing the washing and cook-  
ing, in these days of clearing house  
and cashier's checks, have forgotten  
the outlines of a chuck steak or a  
hen's egg, and are suffering from the  
bone soup and hydrant water rash.

I think we need a new deal. This  
last presidential break has lifted the  
scales from my eyes, and I now look  
with hope for the dawn of the good  
old Democratic days when the people  
shall have the money and the treas-  
ury suffereth not with the gout.

THE DYSPETIC.

### ESCAPED MEN LEFT TRAIL IN OWN BLOOD

New Cumberland, W. Va., Nov. 27.  
—Armed with shotguns, Sheriff A. E.  
Wilkin and son Williams, fired on  
three men who escaped from jail. The  
fugitives safely crossed the river in  
a boat, leaving a trail of blood on  
the bank.

### MURDERER GETS STAY OF HIS EXECUTION FROM GOV. HARRIS

Columbus, Nov. 27.—His petition  
in error denied by Supreme court,  
Frank Earl, the Shelby county mur-  
derer, will get a stay of execution  
from Governor Harris, giving him a  
chance to appeal to the pardon board  
and saving him from execution,  
which was scheduled after midnight  
Thanksgiving.

### O. C. YOUMAN IS DEAD AT PATASKALA

Mr. O. C. Youmans, a well known  
resident of Pataskala, died at his  
home in that place Wednesday morn-  
ing from paralysis of the brain. He  
married Miss Ollie English, formerly  
of this city. The funeral will take  
place Friday afternoon at 2 o'clock,  
from the house. He is survived by his  
wife.

Some young men are only willing to  
begin at the foot of the ladder when  
it is turned upside down.

### ACTRESS TALKS OF GOULD DIVORCE SUIT.

HELEN MAR  
(MRS. R. CLENSY)  
PHOTO BY LALLIE CHARLES.

Angry over the erroneous report of her connection with the marital  
troubles of Mr. and Mrs. Howard Gould, Miss Helen Mar, the "American  
story teller," wife of Rohan Clensy, has written an account of her en-  
forced introduction as one of the star witnesses for the millionaire in  
the coming trial for divorce. So sensational are some of the details  
that she is of the opinion that both Mr. and Mrs. Gould's lawyers will  
make strenuous efforts to keep them secret. She denies the implication  
that she has an interested motive in appearing as a witness in the case.  
She knew Katharine Clemmons when she was only a stage struck girl.

### RAILROAD KILLS THREE.

East Liverpool, Nov. 27.—Stepping  
out of the way of one train, W. J.  
McClure, Howard McClure and Hen-  
ry Redmond were killed today, by  
another.

### FLOOD BUILDING EXTINGUISH FIRE AT GLASS PLANT

Utica, Nov. 27.—About 3 o'clock  
Tuesday afternoon the town was  
aroused by the ringing of the M. E.  
church fire bell. The fire was in  
the office of the Utica Glass Co., and  
was extinguished before much dam-  
age was done. The fire caught from  
a defective flue. The building is of  
concrete blocks, with a tile roof.  
and the fire was confined to the  
planking which supports the roof.  
The fire was literally drowned out  
by water drawn from the large tank  
at the factory. The chemical engine  
owned by the town was at the fire  
and was used for a few minutes.  
Outside of the hole chopped through  
the roof and the soaking of the in-  
terior with water, little damage was  
done. Insurance enough to cover  
all loss was carried.

Born, Saturday, to Mr. and Mrs.  
Edward Brown, a son.

Mrs. Virginia Kinnard of Wy-  
liamstown, W. Va., is visiting at the  
home of her father, Captain Hall,  
and expects to remain some time.

Miss Verda Mahon delightfully en-  
tertained a party of fourteen young  
people last Saturday afternoon, in  
honor of her tenth birthday anni-  
versary.

Harry Deems came home Sat-  
urday from the Illinois oil fields, to  
spend a few days with his family.

He will not remove his family to  
Illinois this winter.

Miss Genevieve Wilson returned  
home Monday after a visit of several  
weeks as the guest of Mrs. Stanton  
Prentiss of Columbus.

Misses Ruth and Hazel Dorsey,  
Mildred Burkholder and Enid Wil-  
liams of Mt. Vernon, were guests of  
Misses Beulah and Lottie Smith on  
Wednesday and Thursday. The  
Wideawake club gave dance in their  
honor Wednesday night.

T. G. Nelson has rented the old  
Mary Rogers house, now owned by  
Fleek & Neal of Newark, and is now  
occupying the property. Mr. Nelson  
purposes to have a portable photo-  
graph gallery on the rear portion of  
the lot, and will be ready for busi-  
ness soon.

Mrs. Bertha Kidd of Columbus, is  
spending the week at the home of  
her parents, Mr. and Mrs. George  
O'Bannon. Mrs. O'Bannon left on  
Wednesday for a short visit at the  
home of her son, George O'Bannon,  
Jr., at Wellsburg, W. Va.

Mrs. C. E. Buckingham of Beau-  
mont, Texas, and two sisters of Mt.  
Vernon, visited at the home of Jon-  
athan Householder from Friday till  
Sunday.

W. H. Warner has been released  
from his position with the Columbus  
Ohio company, as a result of change  
in the division of work made by the  
new field superintendent. Mr. War-  
ner is one of the most esteemed citi-  
zens of Utica, and it is hoped that he  
will engage in some occupation that  
will enable him and his family to  
remain here.

The Saturday Review club was en-  
tertained on last Saturday evening  
by Mesdames Tyler, Thatcher and  
Roberts, at the home of Mrs. Tyler.  
The house was nicely decorated and  
a very delicious and appetizing din-  
ner was served, at which a fine tur-  
key was the main feature.

The county commissioners of Knox  
and Licking counties held a joint  
session last Saturday to consider

the removal of the mill dam. Its  
destruction was deferred, at least  
until an estimate of the damage is  
presented to the board. Many citi-  
zens think that taking out the dam  
would not alleviate conditions dur-  
ing flood time and in the summer  
time would be a distinct detriment.  
Miss Edna Warner has been ill the  
past week with the grip, but is now  
improving. Her position as teacher  
in the public schools is being filled by  
her sister Florence. Miss Ida Reed  
has also been kept from filling her  
place at school this week by illness.

### MASKED MEN ATTACK GIRL AT STEUBENVILLE

Steubenville, O., Nov. 27.—Beaten  
and gagged, her hands and feet tied,  
Mary, the 16-year-old daughter of  
Robert Simpson was found in the yard  
of her own home last night nearly  
dead from exposure. Two masked  
men had followed her home and at-  
tacked her. They tied the girl when  
she screamed. She thinks she recog-  
nized one assailant, but no arrests  
have been made.

### DRUNKEN FRENZY CAUSES MURDER AND SUICIDE

London, O., Nov. 27.—In a drunken  
frenzy, Charles Neer, aged 45, a far-  
mer, shot to death his crippled wife,  
and turned the gun on himself. The  
first shot was not successful. His  
daughter and her aged grandmother  
interfered. Threats of death forced  
them to their rooms. Neer then  
calmly killed himself with a third bul-  
let.

### BIGGEST AIRSHIP IN THE WORLD TO BE KNABENSBUE'S

Toledo, Nov. 27.—The largest air-  
ship in the world, to carry four pas-  
sengers, is being constructed by Roy  
Knabenshue. It will be completed  
by January 1. A flight from Toledo  
to Cleveland will be undertaken.

## MRS. BRADLEY IS AT END OF HER ENDURANCE IN FAMOUS MURDER TRIAL

And the Expert Alienists' Testimony Was Short-  
ened on This Account

SENATOR BROWN'S CLERK TESTIFIED TODAY

That Unfortunate Woman Had Made a Remark Showing  
That Her Homicide Was a Premedi-  
tated Affair.

Washington, Nov. 27.—The begin-  
ning of the end of the trial of Mrs.  
Bradley is in sight. The unexpected  
brevity of the testimony of the expert  
alienists of the defense brought its  
case to a close sooner than was an-  
ticipated. It is now probable the  
government will complete its rebuttal  
today, leaving the way clear for the  
addresses to the jury which will con-  
sume several days.

It is evident Mrs. Bradley is near  
the end of her endurance. Though  
she has remarkable control, the long  
continued strain is beginning to show  
its effects in a marked manner. She  
is emaciated and the waxen pallor of  
her face is seamed with lines of  
anxiety. Formerly she watched pro-  
ceedings with interest. Now for long  
periods she sits with head bowed, her

eyes covered, haggard and listless.  
The jurors will not be allowed to eat  
Thanksgiving dinner at home. They  
will be kept under surveillance as be-  
fore, though a special dinner may be  
prepared for them at a cafe near the  
court house.

There was a dramatic development  
when Attorney Christenson said that  
Brown in his presence, and before  
Mrs. Bradley and Mrs. Brown, denied  
the parentage of her eldest son Max,  
who is fighting hard to convict Mrs.  
Bradley. The parties were engaged  
in a successful conference over a pro-  
posed divorce. Mrs. Brown, the wit-  
ness said, called her husband "a vile,  
low, moral degenerate," and rushed  
at Mrs. Bradley exclaiming "let me  
kill her." Brown previously had ac-  
knowledgeed the parentage of the  
Bradley children.

### REINFORCED NATIVES MAY SURROUND TROOPS

Nemours, Algeria, Nov. 27.—With  
reinforcements of 12,000 the natives  
are now in the field against the  
French and are attacking fiercely. It  
is feared the French detachment may  
be wiped out. The French have been  
burning villages, after beating off the  
original force of tribesmen with 1200  
loss.

### STRIKE THREATENED OF STREET CAR MEN

Pittsburg, Nov. 27.—A strike is  
threatened by 1000 street railway  
employees who demand a reinstatement  
of five men discharged because  
they smoked and drank, although off  
duty at the time of offense.

### NO SETTLEMENT IN GLASSWORKERS' CONTROVERSY

Cleveland, Nov. 27.—The conference  
here between the Union Window Glass  
Workers and their employers ended  
without an agreement being reached.  
The employers refused to accept the  
scale adopted by the Amalgamated  
Glass Workers at Indianapolis, and of-  
fered a counter proposition. President  
Faulkner of the workmen says the  
action of the employers will probably  
end negotiations. Two-thirds of the  
window glass workers in the country  
are idle.

### GUILBERT WANTS FOUR YEARS FOR COUNTY AUDITORS

Columbus, Nov. 27.—In address-  
ing the County Auditors' association  
at their closing session today, State  
Auditor Guilbert was received with  
much applause, when he started the  
ball rolling for a four-year term for  
auditors.

The matter will be brought to the  
attention of the legislature this win-  
ter.

### CHRISTIAN SLAUGHTER CARRIED INTO OTHER ARMENIAN PROVINCES

Vienna, Nov. 27.—While his near  
guard completes the work of plunder,  
arson and murder in the village of  
Diarbekir, Ibrahim Pasha is now car-  
rying the Armenian Christian slaugh-  
ter into the adjoining Asiatic Turkish  
provinces.

In Diarbekir there is little more to  
be done. Ibrahim's Turkish irregu-  
lars and Kurdish troops have killed  
practically all the Armenians, and  
driven them to the mountains. It is  
reported from the city of Diarbekir,  
the capital of the province, that at  
least 1,500 men, women and children  
have been slain, and that a far larger  
number saved their lives only by  
abandoning all their property and im-  
mortal flight.

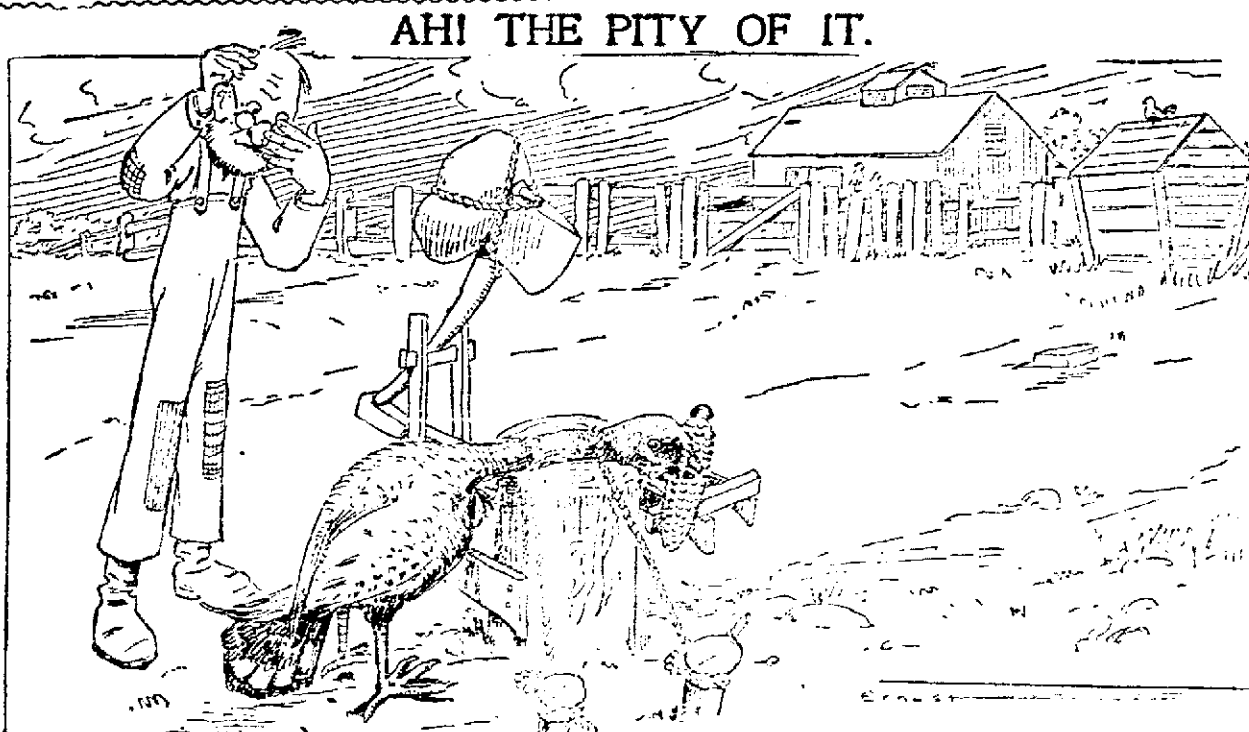

The weather in the mountains is  
already severe and many of the refu-  
gees must perish from exposure. An  
immense amount of loot has fallen  
into the hands of Ibrahim's troops.  
Villages have been burned by the  
savage, and vast stretches of country,  
formerly populous and well cultivat-  
ed, have been transformed into unin-  
habited deserts marked here and  
there by heaps of charred ruins.

The atrocities practiced on the in-  
habitants have been horrible beyond  
description. The villagers through  
which the Turkish force is now pass-  
ing is now suffering a similar fate. It  
is Ibrahim's avowed intention to  
make a clean sweep of the Armenian  
Christians in the entire territory.

The reason for the campaign is not  
very clear, although there are vague  
suggestions of suspected conspiracies  
among the Armenians against the  
Sultan's rule.

East Palestine, O., Nov. 27.—After  
a 25 years' estrangement, Mrs. Mary

lost half-sister, referred to in her  
autobiography.

## A LADY'S GRIEF Grandly Dispelled.

The experience related below shows how a lady suffered from a most unfortunate case of ulcerated pimples, blackheads and unhealthy condition of her skin. It also shows the remarkable restoration to the natural, clear, soft and velvety complexion which she was entitled to enjoy:

"For 15 years I was troubled with ulcerated pimples, and my skin was yellow, oily and full of blackheads. I doctored externally and internally, tried every available remedy, but without success. Was utterly discouraged and ashamed to go into society with such a terrible face. After using your treatment, I am proud of my complexion for the pimples and blackheads have disappeared and my skin is soft, smooth and fairer than ever before. Feeling very grateful for such beneficial results, I gladly recommend your valued remedies to any one afflicted as I was."

## RIBBON WORK EMBROIDERY.

Gifts Any Clever Woman Can Make at Small Expense.

Such dainty gifts decorated with ribbon embroidery may be made for Christmas by women who know this art that there is really no limit to the presents that are possible to construct out of inexpensive materials and that will look like costly articles when ornamented with this hand work, for ribbon embroidery made in floral, elaborate scroll or geometric designs will give even the homeliest of bedroom or dress accessories an original appearance, and anything from the old fashioned pin cushion, that is an essential

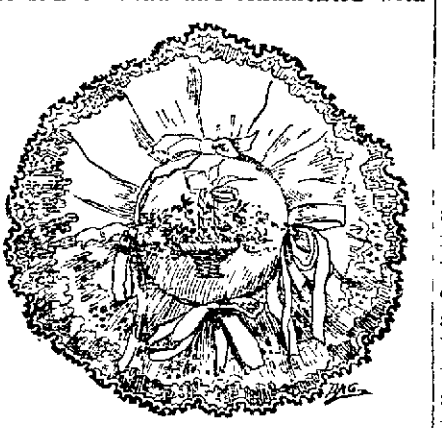

PHOTOGRAPH FRAME IN RIBBON WORK.

in dressing, to the newest corset bag, will be attractive and decidedly acceptable when decorated with it.

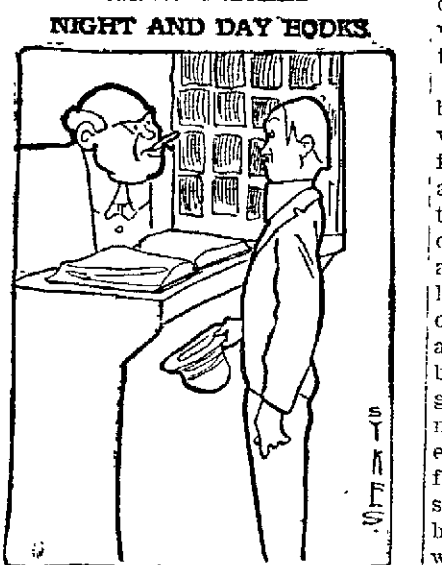

A pin cushion made of white satin in a round style, with two ruffles of real or imitation Valenciennes lace and a third dounce of white silk, is pretty, but when decorated in the center with a Louis XVI. basket made of gold thread, out of which ribbon embroidery flowers in imitation roses and forget-me-nots fall in confusion, this ordinary bureau article becomes a work of art, or if the middle of satin is ornamented with ribbon embroidery made into a running green vine on which conventional tulips or carnations in yellow, pink and blue are worked the cushion is equally effective and unique.

Picture frames for photographs made of silk or satin and ornamented with

ribbon embroidery flowers are comparatively new this season and will be most acceptable gifts, for they may be used with appropriateness on either a dressing table or in a sitting room or parlor. Though these frames, finished with an edging of white or gilt wood, are attractive, a piece of bright gold galleon put around the glass makes the whole more original and decorative.

## HIGH SCHOOL NOTES

In these days when almost every village and town all over the country has its public library (obtained either through the efforts of the people of the town and supported by them as in our neighboring town of Mt. Vernon—or the gift of some public-spirited citizen or of Mr. Carnegie) Newark has become a notable exception. Almost the first thing that a stranger, who comes to Newark, remarks, is "How strange that a town of this size has no public library." This lack and the want of other educational equipments in the High school, such as other cities, no doubt keeps many desirable citizens from making their home in our city. There is no other one thing that is so important a factor in the education of the people of this country, as the public library, and it is a first essential in the education of children. It is quite impossible for girls and boys to form a taste for good reading without having the books to read. It is almost useless for them to study English literature if the authors are only a name to them, or if they know them only through extracts or quotations, or a book or two read in class.

Comparatively few people are able to own large libraries and though these may be well selected they are necessarily limited. It is then not surprising that our boys and girls read trashy novels and grow up without a taste for anything better. The present High school library is very inadequate to the needs of 500 pupils. It has been increased very little in the last few years and the school has doubled in numbers. It contains some good reference books—not nearly enough to go around—and some reading books, all nearly worn out from much reading. It does not even contain complete editions of our standard authors.

The teachers and scholars of the High school have therefore decided to give a Christmas Fair on December 6, the proceeds to be used in buying good reading books. Everyone in Newark who has children should be interested in this Fair and should do all in their power to make it a success.

### AS TO A LIBRARY.

(Communicated.)

Is it not time to ask why Newark is so alone in this important matter of a public library? Is it not time for all who have any interest in the progress of our children and youth in all-around education to be stirring themselves in this open field of our public need? Is it not time for inertness to make way for energy? To argue for the benefits and community needs of a public library in these days should be so unnecessary as to be almost an absurdity. And since no one will dispute the premises of this argument, why be longer indifferent and neglectful in this matter?

Is Newark to remain the most important town in Ohio without a public library? The scholars and teachers of the high school say no to this proposition, and they appeal earnestly to the public to help them. They realize that what they can do will be only a drop in the bucket, but they hope it may be a beginning of better things. Perhaps it may be worth while to note here some particulars from the Ohio school laws.

Sec. 3998, 1-12, says that the board of education of any city or village may by resolution provide for the establishment, maintenance and control of a public library, free to all inhabitants thereof; may purchase site, erect buildings and levy a tax, not to exceed one mill, for a library fund, or may elect a board of trustees with appointive power, and power to purchase grounds and buildings and erect same; to accept gifts and bequests for a library, and make annual reports to the board of education. Said trustees can certify to said board amount needed to support or increase library. Or the board of education may contract with any private library association for the public use of its library (3998-5.) Or it may appropriate annually any amount not to exceed \$250 from the contingent fund for the purchase of books other than

school books (3998-6.) Or it may purchase any private or association library for a commencement (3998-9-1) and levy a tax not to exceed six-tenths of one mill for the purchase of same (3998-12-4). And said funds so collected by tax must be used only for library or reading room purposes. Clearly the state recognizes the importance of this factor in the education of our children and gives power to act in the matter.

Many towns have obtained their libraries through these laws, the boards of education levying the tax and controlling the library, which is, however, a public library. Is there not a library in this town that can be given as a nucleus?

The people of Newark will be afforded an excellent opportunity to please their friends this Christmas, by the pupils of our High school. Attend their fair Dec. 6th, and see if you can't find just the article you had intended to make for a friend, but had not found the time. There will be on sale all sorts of home-made articles, such as handkerchiefs, aprons, calendars, pen and ink sketches, paintings, etc. There will be a table where the busy housewife can buy home-made cake, candy, pie, etc., and an interesting gypsy camp, where you may have your fortune told. The pupils of the High school are giving this fair in order to procure some much needed books and we hope that every one will be interested in their attempt to establish what our High school has needed for some time, a good library.

Thursday evening were each given a  
chance in drawing a Thanksgiving  
turkey and Mrs. Charles Henry, Miss

Child Injured.  
Little Johnny Fitzgibbon, 6 year  
old son of Mr. and Mrs. Frank Fitz-  
gibbon of Hudson avenue, fell out of  
the wagon used in hauling children  
to the kindergarten school at Wood  
side Wednesday morning, and was  
more badly frightened than injured.  
The lad was standing near the hind  
end of the wagon and when the  
driver pulled up suddenly to allow a  
rig to pass in front the lad threw him-  
self out. His foot caught in the steps,  
and the driver, who was unaware of  
the little fellow's predicament, started  
up again, Johnny being dragged for  
a short distance. He was picked  
up by H. H. Scott and placed back in  
the wagon and taken on to school.

Thanksgiving being so near complaints are pretty numerous that turkeys are roosting high.

Taft did not cut out his visit to the Kaiser any too soon. He is hurrying home, but the Republican clubs of Ohio, encouraged by the defeat of the Administration candidate for Mayor of Cleveland, have put up Foraker for the Presidency, and all Ohio may be in open revolt at any time.

As an anticipatory New Year's gift to the Trusts Representative Payne, who is again to be chairman of the Ways and Means Committee, assures them that not a step will be taken in the next Congress to revise the spoliation tariff.

A Republican was President and Congress was overwhelmingly Republican at the time of the panic of 1873, which was probably the most disastrous financial reverse since 1837. A Republican was President and there was no thought of a change when the panic of 1884 occurred. The panic of 1893 occurred after a Democratic President was inaugurated, but while the highest protective tariff we had up to that time was in force, and business was not checked by the election of Mr. Cleveland. The financial panic in 1901 and the present far more severe one were both under a Republican Administration and with the highest tariff we ever had in operation.

The Arkansas squatter who could not shingle his cabin when it rained and would not when it was dry continues to be the great exemplar of the stamphatters. Whether in prosperity or adversity they never can find occasion to revise the tariff. Yet they cannot ignore the obvious truth that in the Dingley tariff is one of the potent causes of the existing industrial crisis.

If the President could retire judges at will there would be a vacancy in the Supreme court. Justice Brewer has hit him several raps, but never so openly as the other night when he said that if the President were ineligible for re-election "we should not now have the spectacle of our strenuous President playing a game of hide and seek with the American people."

The Philadelphia Record suggests that the professor out West who thinks a monarchy with Theodore Roosevelt at the head of it the best government for this country is evidently in training for the obsolete post of king's fool.

## THIRD TERM INTRIGUES

(Philadelphia Record)

In spite of the flourish in the order of President Roosevelt forbidding office holders to appear as delegates in the next Republican National convention, lookers on in Washington, among them so sober an observer as Justice Brewer, of the United States Supreme Court, are convinced of the progress of the third term intrigues. There would have been much more sincerity in the order had its author prohibited his office holders from taking an active part in the contest for the Presidential nomination. Even in the South it will not be hard for Federal officials to procure substitutes to serve the ambition of their master.

Although the President has been regarded by these observers as a candidate from the hour in which he gratuitously declined a third term, he is not expected to break silence while his agents are industriously working for him. A public declaration of his candidature would be so wanting in tact as to defeat the desired end. It would completely betray the intrigue, whilst it is essential to maintain the fiction, that the nomination is "forced" upon the President by the resistless power of the Republican masses. Secretary Taft, who was sent abroad on a needless errand, is re-

turning home to find that the ground which he gained has mysteriously slipped away from him. In Ohio, where all things went his own way because of his really great personal popularity at home, he will make the surprising discovery of a reaction in favor of Senator Foraker which could have been created only by office-holding influence under orders from Washington. The importance of this Ohio conflict in promoting the third term maneuvers is manifest.

Of all the third term agents the most indefatigable is Assistant Postmaster General Hitchcock, who is in the thorough confidence of his White House chieftain. Under cover of a pretended candidacy of Secretary Cortelyou the business of Hitchcock has been to blaze the way for Roosevelt's nomination. How well he has succeeded is already seen by results in the South, where what belongs to the Republican party is under control of a few Federal officials. Alabama is already secured for a third term, and so is Florida, where the officeholders had declared for Secretary Taft before their receipt of definite instructions from Washington. After a sharp conflict of faction incited by the advance

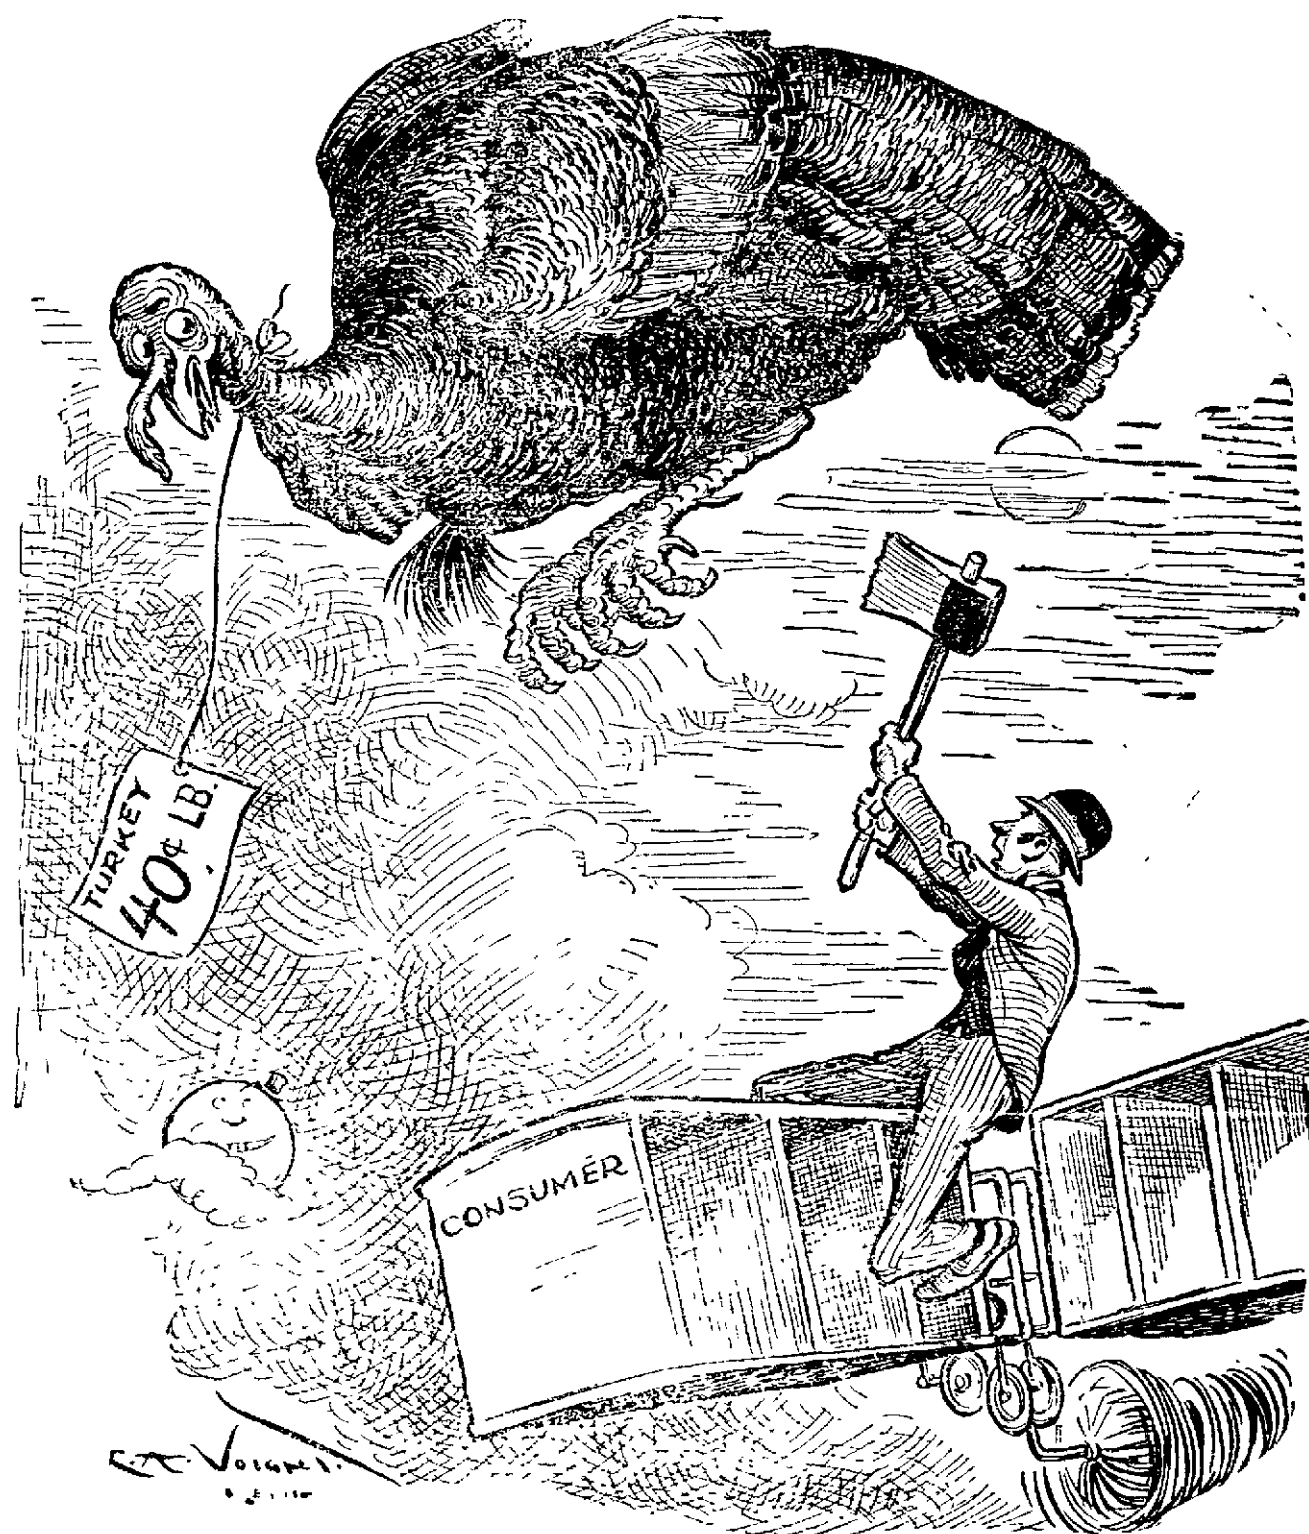

agent of the Administration Taft's friends are driven to the wall, and a solid delegation will go from Tennessee as well as from all the other Southern states for a third term.

Thus the intrigue for Roosevelt's nomination is progressing apace under pretense that the movement is impelled only by the enthusiastic love and admiration of the masses of the Republican party, who manifestly have little or nothing to do with it. This is seen in the great States where Republicans have vital organizations as well as their favorite candidates for the Presidency. But in their silence concerning a third term Hitchcock and his fellow agents of the Administration have proved most industrious manufacturers of a false public opinion.

Congress will not be wanting in all kinds of advice, good, bad and indifferent, as to improving this untoward financial situation.

## ANOTHER

Candidate for the Utica Postoffice is Seeking Indorsement By Petition.

(Utica Herald.)

A new feature in the contest for the postmastership at Utica is the entering of W. E. Lauderbaugh as a candidate. Mr. Lauderbaugh has been circulating a petition for indorsement for the appointment. He has been a resident of this county about two years, being the representative of the Ohio Well Supply company at this point.

A gentleman who communicated with both senators recently, received from Senator Foraker's secretary the statement that Mr. Foraker had already made his indorsement of a candidate for the office. Senator Dick wrote personally that his unvarying custom is to follow the recommendations of the county committee in the matter of such appointments.

Whom Senator Foraker has indorsed has not been publicly announced. Some of the members of the county committee have recommended Hugh C. Bell, and others indorsed Frank P. Gourley. If Senator Dick requires the recommendation of the committee as a whole, thus putting the responsibility entirely upon that body and relieving himself, there is opportunity for work for the candidates. Auditor Wright is chairman of the committee, but Secretary Hamilton, who is referred to by the opposition as the "Boss," is said to be a Bell man.

The question arises: Will the committee unite upon the candidate Mr. Foraker has indorsed, or another; and if another, will there then be a deadlock between the two senators, or will Senator Foraker yield to the county committee? Again? If Postmaster Harris, by serving on Sundays, as he does at present, should have his conscience become calloused so that he should withdraw his resignation, could any one answer the query, "How old is Ann?"

## LOST CHILD HAS RETURNED HOME

Mrs. Homer Simpson called at the Advocate office Tuesday afternoon and stated that her 15-year-old son, Freddie, who followed a gentleman in a buggy Sunday afternoon for a distance of about 15 miles, had returned home at 11:20 o'clock that night.

Mrs. Simpson stated that the facts regarding the case were that a gentleman came riding past their home having a dog chained to the buggy seat which they recognized as a dog belonging to Freddie and which he had loaned a friend in Newark a year ago. The boy immediately saddled a horse and started after the dog but did not overtake it until near Pataskala. The gentleman having the dog was very kind to the boy and was sorry that he had had such a long trip. He had been given the dog by a friend and told Freddie to take him back with him. Being on horseback he was unable to do so and the gentleman offered to bring it to this city some day this week. He was in no way to blame for the boy's long ride as he had no intimation that the little fellow was riding after him.

The young lad certainly loved his canine friend as was evident by the fact that he rode nearly 30 miles to recover him and nearly froze to death. He also caused his parents a great deal of anxiety by his prolonged absence and his mother was nearly crazed thinking some harm had befallen her boy. She hunched up a horse and drove to this city to see if she could find some trace of him. Freddie was unable to go to school Monday as the result of his long ride but other than being fatigued felt no ill effects as the result of his long trip.

## OFFICER BROWN IN PLAIN CLOTHES ARRESTS FUGITIVE

Chief Sheridan Tuesday evening received a telephone message from Columbus stating that there would be a letter and warrant forwarded from that city to Newark by Chief of Detectives Dunden, asking for the arrest of a man named Guntold, who is wanted in Elmira, N. Y., on a grand larceny charge, and who had left word at the Columbus residence to have his mail forwarded to this city. A Columbus detective watched the postoffice in that city for four days, but could not get track of Guntold.

Wednesday morning Chief Sheridan detailed Officer Brown to watch the postoffice. He had hardly taken his stand when Guntold called for his mail. Officer Brown was in plain clothes and when he stepped up to the much-wanted fugitive, Guntold put up a fight, and showed a disposition to break away from the officer. A hurry call was sent for the patrol wagon and Chief Sheridan and Officers Cooperider and Zerkel responded and the prisoner was hurried to the city prison where he will be held until Chief of Police F. J. Casada of Elmira, arrives to claim his prisoner.

Three prisoners faced Mayor McCleary Wednesday morning. Charles Anderson was up shopping with a better half Tuesday evening and after purchasing a Thanksgiving turkey Charles made a quick get-away and filled up with the cup that cheers, and he and the turk were landed in the city prison. Charles drew \$5 and costs and was sent to the stone pile. The turkey was turned over to his wife. Chief Sheridan also recognized in Charles a man who is wanted in Zanesville for moving mortgaged property out of the county. The chief has held a warrant for him for a couple of weeks.

Jimmy O'Neil was enjoying a premature Thanksgiving celebration on Tuesday night when Officer Swank picked him up and gave him free lodging at the city hotel. Jimmy persisted in hurling for the Detroit Tigers claiming that they were a better club than the Cubs, \$65 days out of the year. Five and costs and the stone pile for Jimmy.

## RHEUMATISM FIGHT TO SWELL MILLARD FORTUNE

Nation's Endorsement of "Fuss" as the World's Best Cure for Rheumatism, Something Unheard of in Medical History.

Flint, Mich., Nov. 26.—The news given out last week, dated from Washington, D. C., referring to the Nation's fight against rheumatism, the extensive tests made to determine the best cure for rheumatism in this country and the decision in favor of the Fuss Remedy Co. promises to make Flint, Mich., the location of the largest medical industry in the world.

T. C. Millard of this city, discoverer and owner of the Fuss Cure for Rheumatism had this to say in regard to the decision: "Of course I am elated over the remarkable endorsement I have received for my cure for rheumatism. The tests were fair. They proved beyond doubt, as I have already shown, that the man, woman or child, who has tried this remedy and hasn't been cured, is a mighty rare specimen. I defy any other rheumatism treatment on earth to show the results that I have already shown and proven. When a man can stop the terrible pains of a 14 year case of rheumatism for an old lady 87 years old in three days, or a case like that of John Goldsworthy, way out in Modesto, California, who has suffered for years and was cured with three bottles of Fuss it is surely a wonder. And when you can't find a failure in any case, and they come at you in groups of a dozen and offer you congratulations and ask for more of the treatment, it proves it still more."

"I have found the world's cure for rheumatism. I want to reach every rheumatism sufferer in this country and if you are going to publish anything I tell you, simply say that they can throw away their crutches and canes and get the kinks and pains out of their joints, back and muscles, right now."

"Every bottle of Fuss is worth hundreds of dollars in saving doctor's bills. Fuss is personally recommended and sold in Newark by J. W. Collins & Son at \$1.00 a bottle, or sent express prepaid on receipt of price by the Fuss Remedy Co., Flint, Michigan."

## RAILWAY AFFAIRS

### B. & O. Reducing Force.

The B. and O. company during the past few days has adopted the policy of cutting down their force of laborers. Early last week the force of section men in this vicinity was cut down about one-third and the working time made nine hours. The same policy is being put in force all along the company's line.

This move is sort of an annual affair as most of the heavy work is done during the summer months and the need of such a large force of laborers is not felt during the winter.

### Advance in Freight Rates.

A meeting of the eight freight committees, representing twelve railroads handling iron and steel products from Pennsylvania, Ohio, West Virginia and New York was held in Wheeling, W. Va., for the purpose of revising the rate schedules. It is understood the conference will result in an advance in rates. The following roads were represented: Pittsburgh and Lake Erie, Baltimore and Ohio, Pennsylvania, Buffalo, Rochester and Pittsburgh, Lake Shore, and Michigan Southern, Pennsylvania lines west Wheeling and Lake Erie and Grand Trunk.

### Duties to be Made Lighter.

It is reported that John C. Patterson, who for so many years has been performing the duties as both freight and passenger agent at Mr. Vernon, is to be relieved of the freight work, and that Mr. Salisbury of Plymouth will assume the duties of that department. Mr. Patterson will devote his time exclusively to the passenger department.

### Buying Railroad Stock.

It is said that the extent to which the small investors are buying railroad stocks is indicated by an increase of 3,959 in the number of stockholders on the Pennsylvania Railroad company since October 1. The company's books now contain the names of 52,622 stockholders.

### CHANGE AT HAVES.

# RHEUMATISM

## BODY RACKED WITH PAIN

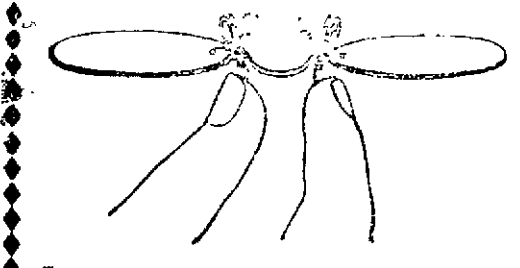

No other disease causes such wide-spread suffering as Rheumatism. It is a nerve-racking torture, and so thoroughly does it dominate the system, when it becomes entrenched in the blood, that its victims are usually complete slaves to pain. Rheumatism is due to an excess of uric acid in the blood brought on by stomach troubles, weak kidneys, indigestion, and a sluggish condition of the system. The natural refuse of the body, instead of passing off through the ordinary channels of waste, is left to sour and ferment in the system because of these irregularities, forming uric acid which is absorbed into the blood, and Rheumatism gets a foothold. As the blood circulates through the body it deposits the acid, irritating substances with which it is saturated, into the different muscles, nerves, tissues and bones. When this occurs, the body becomes feverish, swollen and tender, the muscles and joints throb and jerk, and the body is literally racked with pain. Plasters, blisters, liniments, etc., can never cure the disease; they relieve the pain, perhaps, temporarily, but do not reach the trouble, which is in the blood. S. S. S. is the proper treatment for Rheumatism. It goes down and attacks the disease at its head, and by driving out the poison and acid fluids which are causing the pain, and strengthening and enriching the blood, cures Rheumatism permanently. S. S. S. is the greatest of all blood purifiers, just what is needed in every case of Rheumatism. Book on Rheumatism and any medical advice free.

# COURT DIRECTS PETIT JURORS AS TO VERDICT

IN THE CASE OF AMOS ATWOOD AGAINST THE TRACTION COMPANY.

Assignment of Civil Cases Made—Marriage Licenses—Probate and Other Court News.

In the case of Amos Atwood, administrator of the estate of Raymond Atwood, deceased, vs. C. E. L. & N. J. Co., the court sustained a motion of defendants counsel to direct a verdict in favor of the defendant, and the jurors returned a verdict for the defendant company. The deceased was injured while on the ground of the company at Hebron, by falling from some large pipes running into the canal. Under the pipes was a pool of hot water, etc., into which he fell and was scalded, from the effects of which he died. The decision of the court is to the effect that, as a matter of law, plaintiff cannot recover from the facts disclosed by the evidence. The court found that the railroad company was under no duty to protect the child from what was on the ground, and that the child was on the ground without invitation or authority, as claimed by the company. The matter was argued a lengthy decision. The case will probably be placed in the Circuit court for further consideration. Jones & Jones, Slabaugh; Fitzgibbon, Pomerene.

# TRY THE WATER

Splendid Home Remedy for Stomach and Kidney Trouble and Rheumatism.

"The people here do not drink enough water to keep healthy," exclaimed a well known authority. "The numerous cases of stomach trouble, kidney and bladder diseases and rheumatism are mainly due to the fact that the drinking of water, nature's greatest medicine, has been neglected. "Stop loading your system with patent medicines and cathartics; but get on the water wagon. If you are really sick, why, of course, take the proper medicine—plain common vegetable treatment, which will not shatter the nerves to ruin the stomach."

When requested for such a prescription for the cure of rheumatism and kidney trouble the answer was: "You must make the kidneys do their work; they are the filters of the blood. They must be made to strain out of the blood the waste matter and acids that cause rheumatism; the urine must be neutralized so it will no longer be a source of irritation to the bladder, and, most of all, you must keep these acids from forming in the stomach. This is the cause of stomach trouble and poor digestion. For these conditions I would suggest the following prescription: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in bottle and take, in teaspoonful doses after each meal and at bedtime, but don't forget the water. Drink plenty and often."

This valuable information and simple prescription should be posted up in each household and read at the first sign of an attack of rheumatism, backache or urinary trouble, no matter how slight.

# CATARRH OF THE STOMACH

A Most Dangerous Disease, Which Causes Serious Results, Unless Properly Treated.

Catarrh of the Stomach is very common and is known as one of the most obstinate diseases, which, when neglected or improperly treated with cheap patent medicines, tonics, drugs, pills and other secret quack remedies results in a broken down constitution and often consumption and death.

Catarrh of the Stomach, like every other disease of the stomach except cancer, is the result of poor digestion. The digestive organs have become weak, there is a lack of gastric juice, your food is only half digested, and as a result you become affected with loss of appetite, pressure and fullness after eating, heartburn, vomiting, water-brash, tenderness at pit of stomach, shiny tongue, bad taste in the mouth, constipation, pain in limbs and face, sleeplessness, nausea, belching of gas, diarrhoea, sick headaches, dizziness, mental depression, nervous weakness, and many other common symptoms.

If your stomach cannot digest the food you eat, then the stomach needs a rest, as that is the only way you can get rid of your catarrh, but in the meantime your body needs plenty of nourishment, because you must live and in order to live you must eat, and if you must eat, your food must be properly digested, and if your stomach is too weak to do the work, then you must get a substitute that will do the work.

Stuart's Dyspepsia Tablets are the only known substitute that will digest your food as well as any healthy stomach. They contain vegetables and fruit essences, aseptic pepsin (gov. test), golden seal and diastase, the very elements necessary to digest all foods.

Stuart's Dyspepsia Tablets are not a secret remedy and for that very reason thousands of physicians all over the United States recommend them to their patients for catarrh of the stomach, dyspepsia of all kinds, and other stomach troubles. Experiments and tests have proven that one grain of the active principle contained in these tablets will digest 3,000 grains of food.

# WESTON IS A HERO IN COMPLETING HIS LONG WALK FROM MAINE TO CHICAGO

**Aged Pedestrian Has Successfully Proven False the Theory of Doctor Osler as to Longevity.**

CHICAGO, Nov. 27.—A full day ahead of the record he made 45 years ago, Pedestrian Weston, 6, pranced down Michigan avenue at 9:45 this morning, surrounded by members of the Illinois Athletic club. He addressed a huge crowd at the official destination steps of the postoffice at 11. Weston had reached the city limits at 12:18. At 3 he stopped at the Chicago Beach Hotel for sleep. Weston had traveled 1,293 miles. He left Portland, Maine, October 29, 10 a. m.

By ROBERTUS LOVE.

WALK ten miles every day and live a hundred years! At the end of the hundred years be able to beat the walking record you made at the age of twenty-five, which was a world beater itself! And be healthy, happy and hearty all these hundred years of your life!

Such is the preaching of Edward Payson Weston—"Weston, the walker"—who is now somewhere between Portland, Me., and Chicago, trudging over the same distance and route that he walked just forty years ago. Mr. Weston is not walking 1,235 miles in thirty days, less Sundays, just for a freak. He is not doing it for his health either. He is footing it from Portland to Chicago to prove his theory of health and longevity. He proposes to show forth to this canting and critical world, this doubting and dyspeptic race, this pampered and puerile civilization, that drugs and dumbbells are abominations unto the Lord; that feet should take the place of physic and legs should eliminate athletics.

In other words, Mr. Weston believes that if folks would walk a few miles every day, anywhere from five to twenty, they would keep in good health and hang on to life, liberty and the pursuit of happiness like the old one boss shay, which ran a hundred years to a day, or words to that effect.

## Practices What He Preaches.

Another thing Mr. Weston believes—we do not require alcoholic and nicotine stimulants to keep up our strength. On the contrary, these things sap

half a dozen blocks. Walking is degraded by most of us as if it were a calamity. According to Weston, it is a blessing. This man set out in his youth with the assumption that walking is a mighty good thing for the human race, and he has devoted his life, consistently and candidly, to the self imposed task of substantiating his theory. As a result he will leave to mankind when he finally dies a series of "records" without parallel in pedestrianism.

When Weston was a youth of twenty-five he conceived the notion that it was possible for a human being to walk a hundred miles in twenty-four hours without physical injury. Forthwith he walked from Philadelphia to New York, ninety-six miles from city hall to city hall, in 23 hours and 49 minutes. That was away back in 1863, when many thousands of men were doing a great deal of walking in the south and also doing a great deal of kicking because the walking made them weary, not to speak of footsore. An army of men with Weston's walking powers could have marched fast enough to outmaneuver any enemy of ordinary marching ability. But there was only one Weston.

In those days Weston was a pedestrian by profession. Pedestrianism was something of a "calling," like prize fighting, wrestling and kindred endurance sports. For about twenty-five years professional walkers flourished in America and more so in England, where the six day go-as-you-please walking match became something of an institution. But in time

"And when I'm a hundred years old," he said, "I'm going to walk from Philadelphia to New York and break my record again."

## Pace Too Much For a Horse.

On his second walk between the two cities the old man—old in years only—was followed by two physicians in a buggy, not because he needed medical attention at any time, but because Science, with a big S, wanted to observe and preserve the effect of a walk of a hundred miles in a day upon a man nearly seventy. The horse that started from Philadelphia couldn't stand the pace. It was dead beat after a little more than half the distance, and a second animal almost fell by the wayside on the second relay.

In 1863, when Weston was fifty-five, he walked from New York to Albany, 150 miles, in nearly twelve hours less than the three days he had given himself for the leisurely trot along muddy and icy roads of late December. That was just a practice trot.

Three years later the veteran walker made the tramp from New York to San Francisco and back again, averaging thirty-six miles a day.

Some of Weston's most astounding walkfests took place in England, where walking is said to be more popular than in America. In 1884, under the auspices of the Church of England Temperance society, he covered 5,000 miles in 100 days. He walked fifty miles every secular day excepting Christmas, making up the necessary miles during Christmas week. During this feat he made 3,000 miles with a severely blistered heel, which would have put any less gritty man out of commission, but Weston simply "walked off the blister," for it healed of itself and gave him no further trouble for the rest of the journey. His four thousand nine hundred and ninety-nine mile was made in 9 minutes and 17 seconds, the quickest mile of the 5,000 by more than a minute.

A medical man who rode along with the walker all the way declared that at the end, as at all times during the walk, save for the blistered heel, the pedestrian was in fine physical and mental condition and would have passed an examination for life insurance at the end of the five hundredth mile. This wonderful performance was attributed to the walker's total abstinence from alcoholic stimulants and his perfectly natural mode of life, for all of which the Church of England Temperance society is still shaking hands with itself.

Several times in England Mr. Weston walked 400 miles in five days. Once he made 2,000 miles in 1,000 consecutive hours. That's only two miles an hour, of course, but you try it yourself for a thousand hours before you laugh. The familiar feat of trying to eat a quail on toast every day for a month looks pale and sickly beside that.

## A Cherished Trophy.

One of the trophies most highly prized by Mr. Weston is the belt offered by Sir John Astley, which the American walker won in 1879 by winning a six day match. He made 550 miles in 141 hours 56 minutes of heel and toe exercise. Blower Brown, the great British champion, whom he beat easily, ceased to blow from that date.

Weston's fastest miles were made in that match. He walked the five hundredth mile in 7 minutes 51 seconds, cutting a second off on the next mile.

The records of 96 and 100 miles on the Philadelphia-New York tramps sound pretty big, but they are by no means Weston's best performances for one day. He has made 115 miles a day in a match and 127 miles in practice. And yet this is a man we are talking about, not a steam engine nor an airship.

More wonders of the Weston walkability might be told here. But what's the use? Out of respect to Mr. Weston's years let us desist. Have we not proved already that the seven leagued boots which used to belong to a fairy tale are in reality the property of Edward Payson Weston?

But a word as to Mr. Weston's walking theories from his own mouth is not out of place.

"Walk out of your troubles," he says, "or walk your troubles out of you. There is no malady of mind or body that you can't walk away from. Not one person in ten has exercise enough. Inaction gives one the blues and a poor, weak stomach. The two together make bad nerves, bad tempers and bad characters. Walking will cure all of these. You don't get consumption or influenza or pneumonia or any of the epidemics that are flying around if you do ten miles a day and every day or as near that distance as you can find time for. It's a wise thing to make time for it."

"My ability at sixty-eight to beat my record at twenty-five didn't just happen. I was fit or I wouldn't have tried it. I am well and strong in spite of my being far beyond the age when Dr. Osler would chloroform us all."

"People who drink and smoke are bad subjects for the doctors. Medicine has little effect upon them. Walk, never drink a social glass, never treat or be treated, eat regularly and moderately—I get along on two light meals a day—sleep six to eight hours regularly and don't smoke. Then you'll live long, be healthy and happy."

"Don't try to walk too fast. Find a natural, easy gait and keep it going. Carry a stick. It's a help in more ways than one. Swing it as you go. Up comes your chin, and your lungs fill. Heel and toe is the gait—not heavy on the heel and all the spring on the toes that you can get out of them. Get used to it, and you can make four or five miles an hour right along, up hill and down, for four or five hours without a stop."

Now, gentle reader, get up and walk! Westonize!

the public grew weary of walking matches, so that at present a six day grind would not be patronized as in the palm days of pedestrianism. What became of the professional pedestrians? Oh, they got real jobs somewhere, forgot how to walk, died or did something of that sort!

## A Medicine For Human Ills.

But Edward Payson Weston, who took part in many of these long distance walking matches and won them, has stuck to walking right up to the present day as the serious business of his life. A year ago last May, just to prove that he was not an old man in spite of his sixty-eight years and his gray hairs, he started from the Philadelphia city hall and walked to New York in twenty-three minutes less than his record made in 1863. He did not do this for fun—not at all. He did it for love—the love of his philosophy of life, which makes walking exercise a medicine for all human ills, to be taken if possible for prevention, though also guaranteed to cure most ills. The Philadelphia city hall of today being four miles farther from the end of the route in New York than was the city hall in 1863, the Weston of sixty-eight years, therefore, made 100 miles in 23 hours 26 minutes, beating the performance of the Weston of twenty-five years ago not only in minutes, but in miles.

And after finishing his hundred miles in less than a day this walking wonder held a reception at the Fifth Avenue hotel, made Chesterfieldian remarks to gorgeously gowned ladies to whom he was presented and cracked jokes with the boys.

Oh, well, it was Weston!

# AMUSEMENTS

## AN EXPENSIVE "FIDDLE."

The coming of Francis Macmillen, the sensational young American violin virtuoso, to the Auditorium tonight will give to lovers of fine music in this city not only the opportunity of hearing an artist said to be the peer of any living violinist, but in addition to see and hear perhaps the finest violin in America. Mr. Macmillen plays on an \$8000 Stradivarius violin which was presented to him by Lady Palmer, wife of Sir Walter Palmer, the well known millionaire member of Parliament. Mr. Macmillen first came under the notice of Lady Palmer, wife of Sir Walter Palmer, court concert in London four years ago. He played at the great Queen's Hall, assisted by the Queen's Hall orchestra of 100 pieces under the baton of Henry J. Wood, the celebrated conductor. Hearing him on this occasion for the first time Lady Palmer immediately became infatuated with the wonderful playing of the then

with a good company and a scenic investiture that would do proud to any stage. Miss Hamilton is an artist to say the least, and she is ably supported. At the Auditorium Thursday, afternoon and evening.

## BREWSTER'S MILLIONS.

Imagine yourself the possessor of a million dollars, and being compelled to spend it all in a year and to have nothing tangible in your possession at the end of the period. Sounds good, ay? doesn't it? But is a terrible task. If you have to spend \$1,000,000 a day for 365 days in the year, and you couldn't be the proud possessor of even one automobile or yacht. In order to be prepared for any such emergency you had better see how "Money" Brewster accomplished the task in "Brewster's Millions," which Cohan and Harris will present at the Auditorium Monday evening, December 2.

ANN HAMILTON, Appears at the Auditorium Thursday, Friday and Saturday of this week.

youngful American, and announced her intention of presenting him with the finest violin to be found in London. She searched the shops of the great city for weeks before the great instrument which Macmillen now owns came under her eye. She purchased it for \$8000 and at a dinner given by her in Macmillen's honor, she presented it to him. Wherever the great violinist has appeared the Stradivarius has been admired. From it Macmillen produces a tone which is ravishing in beauty. There is no tone so big, pure and sweet as Macmillen's, is the unanimous verdict of New York and Boston critics.

## AUDITORIUM OFFERING FOR THANKSGIVING.

There are some novelties on the bill at the Auditorium that will be talked about extensively this week, and none more than the feature, Miss Ann Hamilton and her company in "Beggars." This is the first time that a serious sketch of any marked degree has been introduced at the Auditorium and it will be plainly evident that Newark play goes like a strong emotional playlet if it is well acted and "Beggars" is not lacking in the display of dramatic ability. The locale of the little play is Mexico, and it is evident Miss Hamilton realized the possibilities of success for this sketch when she surrounded herself

## GREAT SOUTHERN THEATRE.

Cohan & Harris present fascinating little Edna Wallace Hopper in George M. Cohan's latest musical comedy drama, "50 Miles from Boston," at the Southern theatre, Columbus next Monday and Tuesday, December 2 and 3. Miss Hopper appears in the role of the demure New England village postmistress, whose brother gets her into all sorts of perplexing situations. The supporting company is said to be an unusually strong one. Henry B. Harris will present at the Southern on Wednesday and Thursday, December 5 and 6, Robert Edson in his greatest success "Classmates," the play of West Point life by William C. de Mille and Margaret Turnbull.

The Southern theatre will offer on Friday, December 6, the foremost American comedian, Nat Goodwin. Mr. Goodwin during his long stage career has appeared in such a wide variety of roles, all of which have appealed strongly to the public. There is no question about Mr. Goodwin's ability or his mastery of the refined comedy effects. He is and remains in his class today without a rival in Columbus he will offer one popular piece from his repertoire.

One of the most important bookings of the entire season has been arranged for Saturday, December 7, matinee and night, when "The B-lie

### DESOLATION NOW IN HAPPY HOME.

Details of the Deaths of Children of Edward Leonard at Zanesville Within Three Days.

Twice within 48 hours has the grim spectre death visited the home of Mr. and Mrs. Edward Leonard of Homewood avenue, and all is now desolation where once was a most happy household. In both instances the victims were children of tender years, the pride of their parents and the admiration of their friends. Each was stricken with scarlet fever and after a few days succumbed to the dread disease.

George Edwin Leonard aged 6 years, died Saturday afternoon at 2 o'clock. His little sister, Caroline Elizabeth, followed him late the Great Zeyond Sunday evening at 8 o'clock, and the doubly stricken parents are filled with a great grief, which comes seldom in blows as successive and complete. George was a bright and intelligent child, and was a favorite of his parents and neighbors.

Caroline Elizabeth, aged 3, was the darling of the household, and after the death of little George, the sorrowing family was filled with the hope of saving her life. It was not to be, however. Her tiny body and immature constitution could not withstand the ravages of the fever and her death followed Sunday evening. The sorrowing parents have no heartiest sympathy of the entire community.—Zanesville Times Recorder.

Mr. Edwin Leonard is a brother of Mrs. George Platto. Miss Elizabeth Leonard and Mr. William Leonard of West Church street, this city, who attended the funerals, which were held in Zanesville Sunday and Monday.

## GRANVILLE NEWS

Granville, Nov. 27.—Price Ellis and son Raymond had quite an experience several days ago. They left Granville for Columbus late one afternoon and as they neared Kikersville, their automobile refused to go any further. After a search of some ten or fifteen minutes they finally discovered that a small spring was broken, but try as they would they could devise no means for repairing the same. They were in a quandary and for a time it looked as though they would have to camp in the auto all night. The lights of the machine burned brightly, however, and soon another machine approached and a kind Samaritan inquired as the cause of their trouble. When the matter had been fully explained to him he said: "Why, if you only had a hair pin," but Ellis said that there was no use in thinking about it, that he had no lady with him, only his son. "Oh, I have two ladies with me in my car," said the stranger. "I will see what can be done." Soon he returned with a hair pin—so small and insignificant when compared with the helpless car. The little hair pin was placed and away sped the big car with its joyful occupants who reached their homes in Columbus in safety—saved by a hair pin.

The Cicero Literary society held its annual Thanksgiving Extra on Monday evening and the Irving society held its extra Tuesday night with an old fashioned New England meeting, in which all the characters were attired in colonial costumes and everything had the air of New England. It was a most enjoyable entertainment.

THANKSGIVING DINNER

WILL BE HIGH PRICED

There was a big market Wednesday and an unusually good supply of Thanksgiving delicacies were offered, although the prices asked were almost prohibitive. Turkeys brought the highest prices known in the history of Newark, dressed birds bringing 20 cents while the dressed ones brought 24 cents. As high as \$1.25 was asked for geese while ducks and chickens were correspondingly high. If you were willing to pay seventy-five or eighty cents for a duck you could get a fairly good one while 18 cents per pound were asked for chickens. The Thanksgiving dinner this year will be rather an expensive luxury.
